	IC (Identify - Context)	IR (Identify - Risk)	AEs (Assess - Estimate)	AEv (Assess - Evaluate)	P (Plan)	I (Implement)
1 Stakeholder analysis (category)	green					
RACI	green					
Stakeholder map	green					
Influence / interest matrix	green					
2 PESTLE analysis	green					
3 SWOT analysis	green	yellow				
4 Horizon scanning	green	yellow				
5 Define the probability impact grid	green					
6 Checklists		green			yellow	
7 Prompt list		green				
8 Cause and effect diagrams		green				
9 Group techniques (category)		green				
Brainstorming		green				
Nominal Group		green				
Delphi		green				
10 Questionnaires		green				
11 Individual interviews		green				
12 Assumptions analysis		green				
13 Constraints analysis		green				
14 Risk descriptions		green				
15 Probability assessment			green			
16 Impact assessment			green			
17 Proximity assessment			green			
18 Expected value assessment, EV			green			
19 Summary risk profiles				green	yellow	
20 Summary expected value assessment				green		
21 Probabilistic risk models				green		
22 Probability trees				green		
23 Sensitivity analysis				green		
24 Risk response planning					green	
25 Cost-benefit analysis				yellow	green	
26 Decision trees				yellow	green	
Update summary risk profiles						green
27 Risk exposure trends						green
Update probabilistic risk models						green

Legend

- 🟧 Stages where the technique could be useful
- 🟩 Stages where the technique is mainly used
