## TOGAF 9 In Pictures

TOGAF is an Architecture Framework which has been developed by the Open Group *“to provide the methods and tools for assisting in the acceptance, production, use and maintenance of an Enterprise Architecture”*.

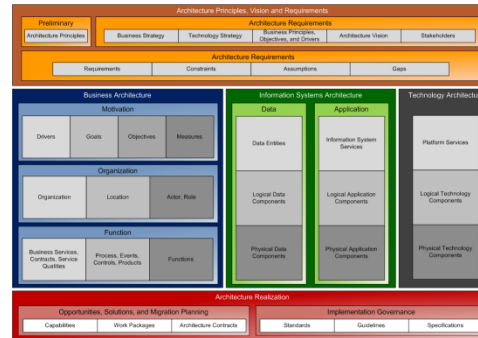

This guide has been designed to give a quick and simple pictorial introduction to TOGAF9, broken down into 6 main ‘modules’, following the modular structure of TOGAF9, which has been a change from TOGAF8.
